

LETTING GO

V1: The past called me up right on schedule today
I listened diligently yet it had nothing new to say
I wish there was some way to send it straight on to voicemail
You see...

PRE CH: I need to break away
No matter what those voices say
I need to be everyone can see I need to be...

CH: Letting go - letting go
I've got to find the courage to risk to love
Go with the flow
Letting go - letting go
I need to find release without the alcohol oh
Letting go I need to be letting go

V2: Bomb blast city anywhere a tragic affray
Elsewhere its another dollar chasing groundhog day
Corrupt world screwed providing latest Red Tops gourmet
And...

PRE CH: CH

BR: Then I see a smile, words from father to fallen son
He cleans that grazed knee says, I believe in you now run
Then I see love from the mother who's lost her child
To the man who shot the bullet from war zone to reconciled

CH2: Letting go letting go
They dare to love finding courage to
Risk love go with the flow
Letting go letting go
All around me I see
Love on show oh
Letting go - letting go
How can I be - letting go

CH:

CODA: So I'm starting to let go my past let go my fears
Letting go the comfort in the hurts and pain of yesteryears
And in the letting go perhaps I'll find more clearer see
Maybe in letting go - finally - I'll find the pathway to be free
